Subject: Change to Statewide Policy: Web Filtering

The Statewide Policy: Web Filtering (ENT-SEC-121) has been updated to reflect changes to the Information Technology Service Division (ITSD) customer interface procedures that accommodate agency requests for Internet filter actions. These changes clarify the steps agencies should take to request Internet filter actions from ITSD.

The changes may be reviewed in paragraph VI.B., items one through three, and in the attached forms. In addition, Appendix B has been added to provide a form to request filtering actions.

The instrument is available at the [Enterprise Information Systems Publications](http://enterpriseinformation.org/publications) webpage at <http://itsd.mt.gov/policy/policies/default.mcp>, under the "Asset Usage" domain.

Please address any questions or concerns to:
